NEWS RELEASE

REALAGENT ONLINE ANNOUNCES RELEASE OF NEW PRODUCTIVITY SOFTWARE FOR REAL ESTATE AGENTS

Calgary, Alberta - April 2, 2007 - RealAgent Online Inc. ("RealAgent Online") is pleased to announce the newest release of its flagship real estate business management software, REALAGENT ACCELERATOR, for Windows-based computers.

REALAGENT ACCELERATOR allows the real estate agent to store, manage, and analyze client relationships, property listings, commission and income, marketing campaigns, schedules, and tasks. It comes with powerful reporting capabilities, email template and newsletter modules, reminder management features, Outlook and ACT integration, and file/document consolidation capabilities. Also included are accounting and automatic form printing features. Suitable for most mid-sized organizations, REALAGENT ACCELERATOR is cost-effective and its streamlined workflow makes it extremely easy to use. A web-based companion portal provides community interaction, user forums, and a listing exchange for agents.

REALAGENT ACCELERATOR is available online under a monthly license for \$79.99 per user. The software will run on Windows 98/2000/XP/Vista. A free, 30 day trial version is available for download from the RealAgent Online website.

RealAgent Online develops dynamic web-based and stand-alone software applications for various business domains, including the real estate industry and other vertical markets.
